The word 'mind' is a catch-all term for both conscious perception and unconscious brain processes that affect thoughts, feelings, and moods. 'Consciousness' is also a catch-all term for subjective experience of perceptions, thoughts, feelings, and moods. Neither 'mind' nor 'consciousness' refer to objects.

mind - The Skeptic's Dictionary - Skeptic.com

The Inter Mind is simply that mechanism or process or Brain area that converts Neural Activity to Conscious Experience. So that is a very important purpose for the Inter Mind. But you do not have Conscious Experiences so I completely understand why you don't see the need for an Inter Mind.
