Beechcraft King Air 90

The King Air C90B is equipped with Yokes, for roll and pitch control. To simulate this, assign the lateral axis of your yoke (or joystick) to the "Roll" command in X-Plane, and the vertical axis to the "Pitch" command. More information is available in the X-Plane Desktop Manual. The King Air C90B is equipped with dual throttles

X-Plane 11

Description The Beechcraft King Air family is part of a line of twin-turboprop aircraft produced by Beechcraft. The King Air line comprises a number of models that have been divided into two families; the Model 90 and 100 series are known as King Airs, while the Model 200 and 300 series were originally marketed as Super King Airs, with "Super" being dropped by Beechcraft in 1996.
